A core U.S. equity fund designed to help you achieve your financial goals and build a better world.

INVESTMENT OBJECTIVE

The Domini Social Equity Fund seeks to provide its shareholders with long-term total return.

INVESTMENT STRATEGY

- The Domini Social Equity Fund invests in a diversified portfolio of primarily large and mid-sized U.S. companies.
- **Domini Social Investments** conducts in-depth social and environmental research on all holdings. Only companies that meet Domini's Global Investment Standards are eligible for investment by the Fund.
- **Wellington Management**, the Fund's submanager, seeks to add value through active quantitative stock selection, while managing risk through portfolio construction.

WHO SHOULD INVEST

- Investors who seek growth of capital over the long term, and are willing to accept moderate to significant fluctuation in share price
- Investors who understand that the way we invest shapes the world that we and future generations will live in

GLOBAL INVESTMENT STANDARDS

Two fundamental principles underlie Domini's Global Investment Standards: the promotion of a society that values human dignity and the enrichment of our natural environment. Domini believes that companies prosper in the long run when they respect their communities, protect the environment, produce safe and useful products, and treat workers, investors, and suppliers fairly.

SHAREHOLDER ACTIVISM

On behalf of Fund shareholders, Domini uses its voice as an owner — through direct dialogue, shareholder resolutions, and proxy voting — to seek improvement in companies' social and environmental performance.

*On November 28, 2008, the Fund's newly formed Institutional shares acquired the assets and liabilities of the Domini Institutional Social Equity Fund. All performance information for time periods beginning prior to November 28 is the performance of the Investor shares. This performance has not been adjusted to reflect the lower expenses of the Institutional shares.

Note: On November 30, 2006, the Domini Social Equity Fund, formerly a passively managed index fund, transitioned to an active management strategy. Past performance and statistics derived from that performance represent the former passive investment strategy, to the extent that they include periods prior to November 30, 2006.

Past performance is no guarantee of future results. The Fund's returns quoted above represent past performance after all expenses. Investment return, principal value, and yield will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. An investment in the Fund is subject to market risks such as sector concentration and style risk. The Fund is not insured. An investment in the Fund is subject to market risks such as sector concentration and style risk. The Fund is not insured. Current performance may be lower or higher than the performance data quoted. For performance information current to the most recent month-end, visit www.domini.com or call 1-800-498-1351.

For the period reported in its current prospectus, during which net operating expenses were capped by the Fund's Manager, the Fund's gross annual operating expenses totaled 0.80% of net assets. Until November 30, 2010, the Fund's Manager has contractually agreed to waive certain fees and/or reimburse certain expenses, including management fees, so that expenses paid by the Fund will not exceed, on a per annum basis, 0.80% of the daily net assets, absent an earlier modification by the Fund's Board of Trustees. The Fund charges a 2.00% redemption fee on sales or exchanges of shares made less than 30 days after the settlement of purchase or acquisition through exchange, with certain exceptions. See the Fund's current prospectus for further information.

Total return for the Fund is based on the Fund's net asset values and assumes all dividends and capital gains were reinvested. Certain fees payable by the Fund were waived during the period, and the Fund's average annual total returns would have been lower had these not been waived. The tables above do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

An investment in the Fund is not a bank deposit and is not insured. You may lose money. Economic and market conditions change, and both will cause investment return, principal value, and yield to fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

The S&P 500 Index is an unmanaged index of common stocks, in which direct investment cannot be made. The composition of the Fund's portfolio is subject to change.

High double digit returns are attributable, in part, to unusually favorable market conditions and may not be repeated or consistently achieved in the future.
